The Future Generations University Security and Fire Safety Report is provided to students, faculty, and staff as part of Future Generations University’s commitment to safety and security, and in compliance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act. Safety and security are shared responsibilities. All members of the University community are encouraged to use this report as a guide for safe practices on and off campus.

Future Generations University is a private, non-profit institution based in Pendleton County, West Virginia. There is no residential campus as the pedagogical model consists of interactive online learning and field residential programs. The main headquarters in West Virginia is comprised of three buildings at the end of a paved road off of Highway 33 on North Mountain. The main office, a house built with local materials, contains all the administrative and support operations; two smaller buildings are “yurt” constructions and are used as storage and as a small apartment.

The University also acquired a 118-year old Queen Anne-style home in 2017 in the community of Franklin, approximately 15 minutes from the North Mountain headquarters. The historic Anderson House property has undergone extensive restoration and is now used to host visiting Future Generations faculty and guests from around the world.

On-campus and residential crime and safety has not been a major issue.

I. JEANNE CLERY DISCLOSURE OF CAMPUS SECURITY POLICE AND CAMPUS CRIME STATISTICS ACT

The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, 20 U.S.C. § 1092(f) (the Clery Act), is a federal law that requires colleges and universities that receive federal financial assistance to disclose annually certain information about campus crime and safety and security policies. This Annual Security and Fire Safety Report contains crime and fire statistics for the three previous calendar years and information on safety and security, crime prevention, and campus law enforcement.

The crime statistics contained in this report include statistics for Clery Act crimes (identified in the Crime Information Section) that were identified by or reported to the University.

This report also contains statistics for weapons, drug, and liquor law violations that resulted in arrest or referral to a University official who initiated a disciplinary action (provided a record was kept and the proceeding may have resulted in the imposition of a sanction).

The University’s Annual Security and Fire Safety Report is published by October 1 each year. The report is available online. Copies of this report may also be obtained from the Admissions
Office, 390 Road Less Traveled, Franklin, WV 26807, or by calling (304) 358-2000. All enrolled students, faculty and staff are notified by email of the report’s availability prior to October 1. In compliance with the Clery Act, the University annually discloses crime and fire statistics to the United States Department of Education.

II. CONFIDENTIAL REPORTING

Victims who do not wish to pursue campus disciplinary or criminal action, but who wish to document the details of an incident with the University, may file a report with the Chief Operating Officer and request that their names be withheld from the report.

Individuals may also report Sexual Misconduct and Relationship Violence to the Title IX Coordinator/ Director of Student Success. The Title IX Coordinator/Director of Student Success will protect the privacy and confidentiality of the individuals involved in any report to the extent appropriate and allowed by law. The Title IX Coordinator /Director of Student Success will evaluate any request for confidentiality in the context of the University’s responsibility to provide a safe and nondiscriminatory environment to all members of its community.

The amount of information detailing the alleged incident or identifying the alleged individual(s) responsible will determine the University’s ability to respond. All reports (even those filed anonymously) are counted and disclosed in the University’s annual crime statistics, as appropriate.

III. Emergency Response And Evacuation Procedures

When a fire alarm sounds, individuals should evacuate the building calmly and quietly to a distance of at least 500 feet from the building and out of the way of emergency personnel. If possible, abled individuals should assist disabled individuals in exiting the building or to the closest stairwell (and should notify first responders of the disabled person’s location). Disabled individuals who cannot use stairs should proceed to the closest stairwell and wait until help arrives. Individuals should not return to the building until instructed to do so by authorized personnel.
